Technical Data Sheet

Induction Heater IH 045

Compact induction heater for bearings weighing up to 45 kg

The compact simatherm induction heater offers a working space of 114×160 mm for heating small to medium-sized rolling bearings and other ring-shaped metal parts. With the automatic time and temperature control, rolling bearings can be heated up to the 110°C specified by manufacturers, and other ring-shaped metal parts up to 180°C .

- Supplied with three yokes as standard
- Very compact design including the yokes only 17 kg in weight
- Extendable bearing support for safe support of workpieces with large diameters
- Remote control via mobile devices via Bluetooth possible (only possible with app "World of Maintenance"!)
- 2 probe technology (Delta-T) to avoid mechanical stresses in the workpiece

Description IH 045

- 1 Clear user interface with LED display
- 2 Extendable bearing support
- 3 Induction coil outside the housing, shortens heating times and reduces energy intake
- 4 Support yoke (standard with 3 standard yokes)
- Magnetic temperature probes; monitoring of bearing temperature on inner and outer ring and protection against bearing overheating
- 6 Blue LED indicates Bluethooth connection
- 7 Main switch

Thermometer mode yes	
· · · · · · · · · · · · · · · · · · ·	
Bearing temperature mode yes	
Power reduction 8 levels / 10-20-30-40-50-60-80-100%	
Automatic demagnetization / residual magnetism yes / < 2A/cm	
Suitable for heating sealed bearings yes	
Suitable for heating pre-greased bearings yes	
Error guide codes yes	
Thermal overload protection yes	
Maximum magnetic flux 1.5 T	
Control panel keyboard wtih LED-display	
Connectivity supports Bluetooth® Low Energy 5.0 standard	
Size of the operating area (W \times H) 114 \times 160 mm	
Coil diameter 89 mm	
Measurements (L x W x H) 320 x 267 x 293 mm	
Overall weight including yokes 17 kg	
Number of standard yokes 3	
$42.5 \times 42.5 \times 219$ mm for bearings with a bore diameter >= 60	mm
Standard yokes 28 x 28 x 219 mm for bearings with a bore diameter >= 40 mm	
$14 \times 14 \times 219$ mm for bearings with a bore diameter >= 20 mm	
Core cross section 42,5 x 42,5 mm	
Yoke storage integrated	
Housing material plastic	

Features and dimensions IH 045

- Can heat a 28 kg bearing from 20°C to 110°C in less than 20 minutes, saving time and energy
- 8-stage power intake in combination with smaller yokes, allows smaller bearings to be heated safely and quickly with less energy
- Temperature pre-selection to 110°C to protect the bearings from overheating
- Automatic demagnetization
- 3 years manufacturer's warranty
